PROFILE

As a skilled and dedicated React.js developer with over two years of experience, I specialize in building robust, scalable, and user-friendly web applications. My expertise includes a deep understanding of JavaScript, modern frontend technologies, and state management libraries like Redux. I have successfully delivered multiple projects using the ReactJs, ensuring high performance and seamless user experiences.

WORK EXPERIENCE

Frontend Developer

IR Solutions, Islamabad

Aug 2022 - Present

- Collaborated within a dynamic team, adapting quickly to changing project requirements and showcasing an ability to thrive in a fast-paced software development environment
- Collaborated with UI/UX designers and back-end developers to create seamless user experiences.

React.js Developer

SocialB.Digital, Lahore

Dec 2022 - June 2024

- Applied code design patterns and architectural principles for maintainable and extensible codebases.
- Designed and developed scalable web applications using React.js technologies.
- Implemented expert knowledge of React.js, Redux, WebSocket, and state management for robust front-end solutions.
- Self-learned Node.js, Express, and Mongoose to contribute to backend development and integration with front-end components.

Internship

SocialB.Digital, Lahore

Sep 2022 - Nov 2022

- Proficiently harnessed HTML, CSS, JavaScript, and React.js to contribute significantly to web-based projects.
- Played a pivotal role in an ambitious project involving multiple intricate games, implementing user management, game scores, progress tracking, and comprehensive history management features.
- Ensured a seamless user experience through intuitive user interfaces and responsive design, enhancing user satisfaction and retention.
